

# TecLines TNH001 laptop holder for mounting on VESA bracket

## Description

The TecLines TNH001 laptop holder with VESA mount has a depth-adjustable shelf that can accommodate notebooks of almost any size. Via the VESA standard of 75x75 mm, the universal laptop holder can be attached to a matching monitor mount, for example. Depending on the flexibility of the monitor arm or stand, the laptop can be moved to the most comfortable position by swiveling, tilting, rotating or adjusting the height. Thanks to a load capacity of up to 5.45 kg, the laptop can easily be used including a docking station. The non-slip adhesive strips on the mounting plate ensure a secure hold. Associated device cables can be routed in an orderly manner thanks to the integrated cable management.

## Key features
