

## TecLines TVS010

### retractable 4-way power strip Qi, USB A/C and RJ45

## Description

The TecLines retractable 4-way power strip is designed for installation in desks, worktops or counters and can be pushed into the table and taken out if necessary. When extended, four socket outlets with earthing contact, two RJ45 ports, one USB-A and one USB-C port appear, which can be used as USB chargers.

A special feature of the TVS010: When retracted, the lid can be used as an induction charger / Qi charger to wirelessly charge Qi-enabled smartphones. The installation of the extendable socket strip is very easy. The TecLines TVS is inserted into a table cut-out and attached to the tabletop from below with a ring. A 2m power cable and two network cables with a length of 1.7 meters are integrated into the 4-way power strip. Popular areas of application are offices, kitchens, conference and meeting rooms as well as in restaurants, at airports or at trade fairs.
