PFC 585 Display ceiling mount

The height adjustable display ceiling mount is used when the height of the ceiling is unknown or flexibility is required. This mount offers variable height adjustment from 850 to 1350 mm. The CIS® Cable Inlay System runs the full length of the pole and even allows for cable routing after installation. The CIS® offers sufficient space for all cables required. The interface has a leveling and tilting function (incremental 0-10-20°).

Features

- Cable management
- Ceiling plate suitable for inclined and flat ceilings
- Height adjustable
- Levelling function
